Re: *Globalstar, Inc. Petition for Notice of Inquiry Regarding the Operation of
Outdoor U-NII-1 Devices in the 5 GHz Band – RM-11808*

Dear Ms. Dortch:

Atlantic Radio Telephone, Inc. hereby supports Globalstar, Inc.'s ("Globalstar's") above-captioned Petition for Notice of Inquiry. We are extremely concerned about the potential for these infringements to make it difficult for our customers to communicate with their Globalstar devices. We fear that these infringements will create a strain on our business and more importantly they may put our customers' lives in jeopardy. Many of our Globalstar customers are operating in potentially hazardous environments, and their Globalstar device is their only communication link. It is imperative that these users can rely on the communications link we have provided to them.

Respectfully submitted,

Sam Crowther
Vice President
