In the Matter of)	
)	
Connect America Fund)	WC Docket No. 10-90

**Comments of
Alexicon Telecommunications Consulting**

Alexicon Telecommunications Consulting (Alexicon) files these comments in response to the Public Notice issued in the above-captioned proceeding relating to an updated list of census blocks eligible for Connect America Phase II support.¹

Alexicon provides professional management, financial and regulatory services to a variety of small rate-of-return Incumbent Local Exchange Carriers (ILECs) and their affiliates who serve diverse geographical areas characterized by rural, insular or Native American Tribal Lands. These ILECs, similar to most other small rate-of-return regulated ILECs, currently provide a wide range of technologically advanced services to their customers. These companies, through participation in various State and Federal high cost funding programs, and with their continued investment in network infrastructure, are providing customers in rural, insular and Tribal areas with services equal to or greater than urban areas, and at comparable pricing. Furthermore, these ILECs are committed to providing their customers with innovative solutions, by adapting technologies that fit rural America, including Broadband and IP-enabled services. In these comments, Alexicon is addressing the following rate-of-return (RoR) regulated carriers:

- East Ascension Telephone Company (SAC 270429)
- LaFourche Telephone Company (SAC 270433)
- Smithville Telecommunications, Inc. (SAC 320818)
- Blue Earth Valley Telephone Company (SAC 361358)
- Easton Telephone Company (SAC 361384)

¹ *Wireline Competition Bureau Releases Updated List of Census Blocks Eligible for Connect America Phase II Support and Announces Deadlines for Certain Additional Updates in Price Cap and Rate-of-Return Areas*, Public Notice, WC Docket No. 10-90, DA 17-561 (rel. June 8, 2017) (*Public Notice*)

- Eckles Telephone Company (SAC 361386)
- Rice Belt Telephone Company (SAC 401721)
- Wamego Telephone Company (SAC 411845)
- Wilson Telephone Company (SAC 411849)
- San Carlos Apache Telephone Utility, Inc. (SAC 452169)
- Gila River Telecommunications, Inc. (SAC 452179)
- Fort Mojave Telecommunications, Inc. (SAC 452200)
- Mescalero Apache Telecom, Inc. (SAC 491231)
- La Jicarita Rural Telephone Cooperative (SAC 492263)
- Rural Telephone Service Company (SAC 411826)

Alexicon is responding to the request made in the *Public Notice* that encourages rate-of-return (RoR) carriers “to provide any information they may have” about whether certain census blocks listed in the Bureau’s updated list of census blocks are included in the carrier’s service area.² Overall, the purpose of the updated list of census blocks is to present new areas eligible for Connect America Fund (CAF) Phase II support in states where the price cap carrier accepted the statewide offer of support. Even in these states, there are certain areas where CAF Phase II support will be available for bidding in the upcoming competitive auction.

The *Public Notice* lists three main areas where the eligible census block list is being updated: (1) accepted price-cap offer updates and corrections, (2) extremely high-cost census blocks, and (3) rate-of-return area blocks. A subpart of the price cap offer updates and corrections is changes made to the eligible census block list to identify census blocks included in the list that may be in areas served by RoR carriers. It is vital to identify these census blocks as “no census block in a rate-of-return study area will be eligible for the Phase II auction.”³ In these comments Alexicon will address the updated list of census blocks to the extent it includes any blocks in areas served by Alexicon’s clients.

Rate-of-Return Carrier Census Blocks

Alexicon reviewed the updated list of census blocks eligible for the CAF Phase II competitive auction. In this list, Alexicon found a substantial number of census blocks that are at least partially contained in the RoR ILEC service areas of its client list. These census blocks are listed on Exhibit A.

² *Public Notice* at 3

³ *Id.*

Alexicon compared the list of census blocks referenced in the *Public Notice* to data collected through (1) study area boundary data collection, and (2) Form 477. Any census blocks common to both lists were noted; however, according to Alexicon's analysis, certain census blocks appeared to be contained only in part in the RoR carriers' study areas. As a result, Alexicon calculated the percentage of each census block shown in both lists contained in the RoR carrier study area. In order to reflect only census blocks with significant amounts of overlap, Alexicon used a threshold of sixty percent. In other words, a census block shown in the Bureau's updated list that was found to be in one of the RoR carrier's study areas had to, according to Alexicon's analysis, be at least sixty percent contained in the RoR carrier's area in order to be included on the lists contained in Exhibit A.

It is clear that the list of census blocks shown on Exhibit A are located in RoR carrier study areas and should therefore not be included in the upcoming CAF Phase II competitive auction.

Conclusion

Alexicon requests that the census blocks listed on Exhibit A be excluded from the Commission's upcoming CAF Phase II competitive auction. Each census block is at least sixty percent contained in a RoR carrier's study area and thus should not be eligible for support awarded via the CAF Phase II competitive auction.

Respectfully Submitted,

Alexicon Telecommunications Consulting
