Re: Notice of Ex Parte Presentation, MB Docket 16-42, CS Docket 97-80

Dear Ms. Dortch:

On July 6, 2016, Rick Chessen of the National Cable & Telecommunications Association; Stacy Fuller, Alex Starr, and Raquel Noriega of AT&T/DIRECTV; and Paul Glist of Davis Wright Tremaine met regarding the above-referenced proceeding with:

Gigi Sohn, Counselor to the Chairman Wheeler, Jessica Almond,\* Legal Advisor to the Chairman, Louisa Terrell, Advisor to the Chairman; Scott Jordan, Chief Technologist; Eric Feigenbaum; and Brendan Murray of the Media Bureau.

\* (via phone)

The participants discussed using open standards-based HTML5 apps for promoting increased competition in navigation devices, as proposed by representatives from MVPDs and independent, minority-owned TV networks and described in the ex parte notice of June 16, 2016. We discussed the delivery of such apps to homes that do not subscribe to broadband Internet access service; the availability of HTML5 EME as an open, royalty-free standard; support available for implementing HTML5 EME; security arrangements used for MVPD service; and support for closed captioning in HTML5 EME. We also discussed how the license would include provisions that the device manufacturers and stores do not impose any fee or surcharge on MVPDs for providing the app or for transactions enabled through the MVPD service; provisions to protect customer privacy; and provisions to maintain the technical integrity of the app so that consumer protections, content security, and the terms of the MVPD's underlying programming licenses and the scope of rights granted by the programmers to the MVPD are fully enforced.

Respectfully submitted,

/s/ Paul Glist

Paul Glist
