▼Narrative

We would like to appeal this decision and reversal of funds. The school chose MIBS as their category of service for their 2017-18 470 form to take advantage of the benefits of that this new category of service had to offer. Upon filing the 471 application the school had only received one bid and it was for BMIC. The school realizing that there are similar service offerings between the two categories of service submitted the application using the documentation received by the service provider. This application had been reviewed and funded. As a result the school incurred the BMIC expenses. We feel that USAC is also responsible for committing these funds after completing their own an extensive multi-step review last year. If this discrepancy had been found during the PIA review process the school would not have moved forward and incurred 12 months of BMIC expenses. We ask you to reverse this decision to not further impact the school and their finances for the 2017-18 year.
