Re: WC Docket No. 19-164; Supplement to Joint Application of Inter-Community Telephone Company, L.L.C. and Absaraka Cooperative Telephone Company, Inc.

Dear Ms. Dortch:

Inter-Community Telephone Company, L.L.C. (“Assignee”) and Absaraka Cooperative Telephone Company, Inc. (“Assignor”) (Assignor and Assignee jointly referred to as “Applicants”) hereby submit this supplement to their joint application filed on June 14, 2019 in the above-referenced docket (“Joint Application”). Applicants supplement the Joint Application as follows:

1. Assignor’s application is for an assignment of assets, and not for a transfer of control of Absaraka to Inter-Community Telephone. The application requests that the Commission “grant its consent to the assignment” of Assignor’s customer base and authorizations to Assignee. The Applicants executed an asset purchase agreement, and Assignee will obtain control of Assignor’s assets, but Assignee will not obtain control of Assignor.
2. Assignee and Assignor are not affiliated with Onvoy, LLC (“Onvoy”), a Minnesota limited liability company. Assignor has a contractual relationship with Onvoy to act as a billing agent for Onvoy’s long distance service that Onvoy provides to Assignor’s customers. Assignee is affiliated with North Dakota Long Distance, LLC (“NDLD”), a North Dakota limited liability company. Specifically, BEK Communications Cooperative (“BEK”), a North Dakota cooperative, which holds a 100% interest in Assignee, also holds a 10% direct interest in NDLD. The other 10% or greater interest holders of NDLD are not affiliated with or hold any interests in BEK or the Applicants. NDLD does not hold any interests in any telecommunications carriers. Neither Assignee nor BEK hold interest in any other telecommunications carrier.

3. Assignor provides service to a single exchange, the Absaraka exchange. It provides service to approximately 31 residential and 3 business access lines.
4. The officers and directors for BEK are set forth below. All officers and directors are U.S. Citizens.
