

The internet should be a free and open resource to all. A pay to play system damages everyone, even those who think they win. Changing laws so that a small segment of the population can make obscene profits is disgraceful and disgusting, and regardless of this outcome, will not win in the end.

We do not want corporations to make decisions for us! We want a FAIR and OPEN internet and are in favor of keeping net neutrality laws in place so that the sickening greed of a few, does not ruin an important resource for everyone.

KEEP NET NEUTRALITY!!!!
