

My name is Paul Ploener, and I am the owner and General Manager of WFDR-FM in Woodbury, Georgia.

I am in full support of the MMTC and SSR Communications FM Class C4 / 73.215 proposal to allow eligible Zone II Class A stations to upgrade in power from 6,000 Watts to 12,000 Watts.

Please implement the MB 18-184 proposal fully without delay. Many small broadcasters need this relief.

Sincerely,  
Paul Ploener  
WFDR-FM
