In the matter of (

(

Amendment of Parts 73 & 74 to further (MB Docket RM-11810

Implement the Local Community Radio Act (

of 2010 and make other improvements to the (

Low Power Radio Service. (

I am the operations manager for KGCE-LP/Modesto which signed on June, 2015. I am in agreement with REC's proposals to help current LPFM stations, including our own; to prepare for possible future LPFM filing windows; and to strengthen the LPFM service generally. I would in particular point out the proposal to expand the service to allow for up to 250 watts ERP, which would extend our station's range modestly but, more importantly, improve building penetration within our station's existing service area.

Respectfully submitted,
