RE: WC Docket No. 18-380; RENEWAL of SECTION 63.63 APPLICATION of AT&T

Dear Ms. Dortch:

AT&T Services, Inc. on behalf of its affiliates AT&T Corp., BellSouth Long Distance, Inc., BellSouth Telecommunications, LLC, SBC Long Distance, and Teleport Communications America, LLC, collectively referenced herein as "AT&T", collectively referenced herein as "AT&T" filed a Section 63.63 application in the above-referenced docket on December 11, 2018 seeking emergency authorization under Section 214(a) of the Communications Act, as amended ("the Act"), 47 U.S.C. § 214, to suspend AT&T's wireline interstate telecommunications services after Hurricane Michael caused significant damage to AT&T's facilities in 392 distribution areas in Florida.

As reported on April 30th, AT&T has completed its network restoration in 391 (99%) of the 392 Distribution Areas (DAs). AT&T has completely restored the damage to its facilities in Panama City Beach, Laguna Beach, Bainbridge, Sunny Hills, Vernon, Havana, Calloway, Chipley, Graceville, Lynn Haven, and Youngstown Fountain, but still has work to complete in Panama City.

Unfortunately, AT&T's restoration efforts were again further delayed in Panama City due to the lack of the availability of access to homes and businesses to provide service.

AT&T expects to have services restored in the remaining DA within the next 45 days, and accordingly, requests an extension of the emergency discontinuance authorization until September 2, 2019.

Best regards,

A handwritten signature in black ink, appearing to read "Terri L. Hoskins", with a stylized flourish at the end.

Terri L. Hoskins
