Dear Chairman Pai,

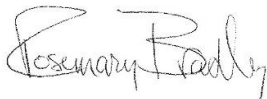

I write to disapprove of the proposals and tentative conclusions set forth in the FCC’s September 25 2018 Further Notice of Proposed Rule Making in *Implementation of Section 621(a)(1) of the Cable Communications Policy Act of 1984 as Amended by the Cable Television Consumer Protection and Competition Act of 1992*, MB Docket 05- 311.

In Dayton, Ohio, our local PEG access TV channels, operated by the City of Dayton, Dayton Public Schools, and Dayton Access Television, offer live and repeat broadcasts of City Council meetings, City Budget meetings, School Board meetings, School events, public meetings, events and community forums as well as locally produced citizen impact programs that inform and reinforce community dialogue and open communication for all the citizens in Dayton.

This local presence enables the residents of Dayton, Ohio to watch uniquely local programming about their community and local events and issues of interest to them. And that was the intent of the PEG provisions of the 1984 Cable Act – to enhance local voices, serve local community needs and interests, and strengthen our local democracy. By defining “franchise fee” in an overly broad fashion to include “in-kind” support, the FCC’s proposals will shift the fair balance between cable franchising authorities and cable operators and will force communities to choose between franchise fees and PEG channels, – something that was never the intent of the Act.

We appreciate your consideration and hope you will protect PEG channels in our community and others by choosing not to adopt many of the proposals in the Further Notice.

Sincerely,
