Re: *Ex Parte* Notice: *Terrestrial Use of the 2473-2495 MHz Band for Low-Power Mobile Broadband Networks* – IB Docket No. 13-213

Dear Ms. Dortch:

On July 18, 2016, Jay Monroe, Chairman of the Board of Directors and Chief Executive Officer of Globalstar, Inc. (“Globalstar”), spoke by telephone with Edward “Smitty” Smith, Legal Advisor to Chairman Tom Wheeler, regarding the above-captioned proceeding.<sup>1</sup> Mr. Monroe urged that the Commission expeditiously adopt rules in this proceeding to authorize an innovative broadband service, Terrestrial Low Power Service (“TLPS”). Such rules would serve the public interest by adding 22 megahertz to the nation’s broadband spectrum inventory and alleviating congestion in the 2.4 GHz ISM band. Simply put, consumers will be better off with the expanded capacity made available via TLPS.

Pursuant to section 1.1206(b)(2) of the Commission’s rules, 47 C.F.R. § 1.1206(b)(2), this *ex parte* notification is being filed electronically for inclusion in the public record of the above-referenced proceeding.

Respectfully submitted,

/s/ Regina M. Keeney  
Regina M. Keeney

cc: Edward “Smitty” Smith
