Re: **Report of Oral *Ex Parte* Communication**

*Office of Engineering and Technology and Wireless Telecommunications
Bureau Seek Information on Current Trends in LTE-U and LAA Technology,
ET Docket No. 15-105*

Dear Ms. Dortch:

On July 21, 2016, at his request, I spoke by telephone with Edward Smith, legal advisor to Chairman Wheeler, regarding the above-captioned matter.

Mr. Smith asked questions about the logistics and schedule related to the status of Wi-Fi Alliance efforts to develop a test plan to ensure fair coexistence between Wi-Fi devices and equipment operating on unlicensed spectrum using Long Term Evolution (“LTE”) technology (“LTE-U” equipment). I informed Mr. Smith that we continue to expect that, by the end of September 2016, Wi-Fi Alliance would issue version 1.0 of the test plan. By that time, we also expect that there would be at least one third-party test organization ready to offer test services using the test plan. Finally, I reminded Mr. Smith that the development of the test plan is proceeding more quickly than similar efforts, and that the speed of the project is dependent on industry participation to perform much of the work.

Wi-Fi Alliance remains committed to deliver a solution to ensure fair coexistence between LTE-U and Wi-Fi products. Pursuant to Section 1.1206 of the Commission’s rules, an electronic copy of this letter is being filed for inclusion in the above-referenced docket and

provided to Mr. Smith. Please direct any questions regarding this filing to the undersigned.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Edgar Figueroa", with a long horizontal flourish extending to the right.

WI-FI ALLIANCE
