

Petition for Reconsideration or Application for Review CC Docket No. 02-6

Lake Rose Christian Academy

BEN 17012014

FCC 471 181042865

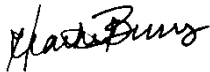

July 26, 2018

This is a Petition for reconsideration of Lake Rose Christian Academy's FY18 FCC 471 late filing. Due to the school's lack of familiarity and inexperience in the eRate Program they were unaware of the deadlines to certify the FCC 470 and 471 Forms. The school does however have a multi-year contract with their current provider, Bright House Networks, LLC, which was signed within the Allowable Contract Date in 2017. No changes were made in service therefore an FCC 470 Form was not required for the FY18 eRate filing.

All required items under USAC's guidelines were in order. The only part of the process that was overlooked was the certification deadline. CTI eRate services since has taken over Lake Rose Christian School's eRate filing moving forward. It would be greatly appreciated if the Commission would reconsider the decision of funding while CTI eRate Services, LLS, will do its part to ensure that filing deadlines are reached in the future.

Thank you for your time.

Sincerely,

Heather Burns, eRate Specialist
