Office of the Secretary  
FCC  
Washington, D.C. 20554

Dear Sirs:

Docket FO 92-206 calls for the privatization of administration of the remaining FCC exams subject to Federal certification. We support this with the provisions that:

That multiple entities (SBE, NARTE and NABER) be designated as the testing entities. These organizations have designed certification programs in response to Docket 86-322, 96 FCC 2d 1123 (1984) and are currently regarded as accepted certification through out the industry.

Additional entities not be established that would add confusion to the certification process.

That these accredited organizations certifications be recognized in place of state licensing requirements for engineers or certification in the field of telecommunications.

If we can be of further assistance please let us know.

Larry J. LaBorde
