

Schreiber of MIT and Advanced Television Program Research,
which provides additional personal viewpoints.

MAET is actively interested in the vital HDTV issues under
consideration in this proceeding. It intends to file appropri-
ate comments in later phases of this proceeding concerning the
necessity for avoidance of premature positions on this volatile
issue which could render obsolete the existence of the local
television broadcast system in this country. MAET submits that
the attached materials provide thoughtful information concerning
these matters and are worthy of review and close scrutiny by the
Commission.

Respectfully submitted,

MISSISSIPPI AUTHORITY FOR
EDUCATIONAL TELEVISION
