FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

What more can be done to hurt the self employed American? Our politicians continue to say "The back bone of our country is the small business person". If the federal communications commission restricts person to person solicitations to residential homes, the true loser will be the small business person. If they fail, so goes our country!

Our country is already in deep recession. Webster defines recessions as; "A period of reduced trade or business...". Docket No. 92-90, telephone consumer protection act of 1991, will only serve to continue to depress business. How much more can our country take? What will this do to our free enterprise system? With out a doubt Docket No. 92-90 will cause a severe blow to our nations already faltering economy.

I am a experienced and knowledgeable realtor in the state of California and as a small business person, I know that Docket No. 92-90 serves no useful purpose. Our industry depends, in fact survives, on person to person contact.

I urge you to consider the serious damage that Docket No. 92-90 will cause to our economy and to the small business person in particular. This is not a simple question of an individual being inconvenienced for a few moments. It is much more complex. Remember, anyone can say "No thank you" and just hang up.

Thank you for taking the time to consider my concerns. Let us not forget who the back bone of this country is-- the small business person. I truly believe that the future of our country depends on your decision.

Respectfully,

Kathy Gombel

Attention: Docket No. 92-90

To Whom It May Concern:

After 20 years in the Real Estate business, our firm knows the importance of Real Estate agents being able to use the telephone with reference to inquiring whether properties are available for sale.

At any given time, there are hundreds of homes with listings that have expired, but still require the assistance of a real estate organization to be sold. Not only would any restrictions in this form of communication be extremely disruptive to the real estate industry, it would also present a hardship to the families trying to sell their homes.

In your attempt to reduce some of the unpleasant solicitation we all get at dinner time, we sincerely request that the decisions not be so sweeping as to hurt the real estate industry or the consumers it serves.

Your assistance is critical in this matter. I know many constituents that feel the same as I do.

Sincerely,

Attention: Docket No. 92-90

To Whom It May Concern:

After 20 years in the Real Estate business, our firm knows the importance of Real Estate agents being able to use the telephone with reference to inquiring whether properties are available for sale.

At any given time, there are hundreds of homes with listings that have expired, but still require the assistance of a real estate organization to be sold. Not only would any restrictions in this form of communication be extremely disruptive to the real estate industry, it would also present a hardship to the families trying to sell their homes.

In your attempt to reduce some of the unpleasant solicitation we all get at dinner time, we sincerely request that the decisions not be so sweeping as to hurt the real estate industry or the consumers it serves.

Your assistance is critical in this matter. I know many constituents that feel the same as I do.

Sincerely,

BRAUN & MAY REALTY, INC.
