Dear Ms. Dortch:

Re: Hollis Telephone Company - Notice of Network Change

Dear Ms. Dortch:

Pursuant to Section 51.332 of the Commission's rules, Hollis Telephone Company ("Hollis") hereby submits the attached Notice of Network Change. Specifically, Hollis provides notification to the Commission of the replacement of copper distribution and loop facilities with fiber-to-the-home facilities at a certain digital service area (DSA) located in Hollis, New Hampshire. Upon completion, Hollis will provide services through its fiber optic network.

This project impacts only local exchange customer lines; Hollis does not have any carrier customers. The majority of customers served by copper at these locations purchase "plain old telephone service" (POTS). Following transition to fiber, Hollis will continue to offer these customers the same POTS service over fiber at the same or better price as they received on copper facilities. There will be no change in the underlying features and functionalities in their service: this is not a transition to IP-based service, and Hollis will offer these customers the same regulated service they have today.

Concurrent with this filing, and in accordance with Section 51.332(b)(4) of the Commission's rules, a copy of this Notice of Network Change is being submitted to the Secretary of Defense, the Governor of the State of New Hampshire, and the New Hampshire Public Utility Commission.

Please contact me should you need any further information.

Sincerely,

A handwritten signature in black ink that reads "Jennifer R. Heise". The signature is written in a cursive, flowing style.
