Dear Follow Broadcaster:

My name is Stephen G. McGowan, and I am the owner and General Manager of WJAQ and WTOT in Marianna, Florida.

I am in full support of the MMTC and SSR Communications FM Class C4/73.215 proposal to allow eligible Zone II Class A stations to upgrade in power from 6,000 Watts to 12,000 Watts.

We have consistently been a beacon of community service for over 50 years.

Please implement the MB 18-184 proposal fully without delay. Many small broadcasters need this relief.

Sincerely,

Stephen G. McGowan /s/

Stephen G. McGowan
