

I'm an Inocaption user and this app has been an exceptional upgrade to my quality of life. Recently, I have been classified 100% disabled due to almost complete hearing loss due to my service in the Navy. Basically, I am unable to communicate by phone without Inocaption. I have 3 daughters, 3 grandchildren, 2 brothers and many friends with whom I communicate on a regular basis. Quite honestly, Text, snail mail and e-mail just don't hack it. I can't thank the FCC for this great service. Keep up the good work.

John R. Bliss (USN ret)
