

MOTION TO ACCEPT LATE FILED COMMENTS

To: Federal Communications Commission

From: Fred Goldstein, Interisle Consulting Group

Date: 7 August 2018

RE: WC Docket 18-141

On August 6, 2018, I attempted to upload a Comment on behalf of the ICG CLEC Coalition into ECFS in Docket 18-141. The web site returned an error message, not accepting the PDF. I instead uploaded a .docx Word file from which the PDF had been created. Unfortunately, while I had removed redlines from the Word file, some private editors' comments remained in the document that was posted, which I did not see.

I contacted the ECFS help desk and we ascertained that the ECFS uploading system is sensitive to browser type, which caused the error. Using a different browser, I am able to upload the accompanying PDF. I thus move that the PDF, which I did mail to the ECFS Help Desk the evening of August 6 (the closing day of comment), be accepted as a late filed comment and the original .docx filing, ID# 10806141467301, be marked confidential so that the PDF is all that is seen. Thank you for your assistance.
