RE: 63.71 Application of TDS Metrocom, LLC

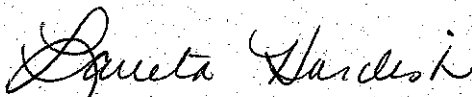

To Whom It May Concern:

After receiving notification from TDS Metrocom, LLC, on June 4, 2019, that our phone and internet service would be discontinued on September 3, my office has spent countless hours trying to find an adequate replace for our internet service. We are down to the wire and still have not been able to find a provider for internet if our service with TDS is discontinued.

We are a rural township office that uses internet for tax payments, assessing and election administration along with e-mail service for all departments. High speed internet is not an option but the crew at TDS put a lot of effort into finding a solution using a T-1 line for us several years ago. They have continued to provide us with excellent service and we request that we be allowed to remain status quo with them.

Please consider our request to be allowed to remain with TDS Metrocom, LLC for both our internet and telephone services as this part of rural Michigan does not offer any other service provider for us to turn to. Verizon, AT&T and Comcast have all failed to find a solution to our needs.

Sincerely,

Laveta Hardish, Supervisor
