Narrative

This 471 uses a contract with items of hardware and also installation, activation, and configuration costs for what will add to the technology of our school. It includes licenses for the products we need. The AGM switch in particular is needed to connect our switches to our fiber capacity. The Cat 6 drops listed on page 2 of the contract are needed to upgrade our wireless capability in the auditorium and cafeteria. We may not use the 250 network patch cables that are listed since we already have some of this work done on our own. The number of hours listed may not be the number of hours that the work will take.

I acknowledge that failure to comply with program rules could result in civil or criminal prosecution by the appropriate law enforcement authorities.

I acknowledge that I may be audited pursuant to participation in the schools and libraries program. I certify that if any of the Funding Requests on this FCC Form 471 are for discounts for products or services that contain both eligible and ineligible components, that I have allocated the eligible and ineligible components as required by the Commission's rules at 47 C.F.R. § 54.504.
