Re: Petition of USTelecom for Forbearance Pursuant to 47 U.S.C. § 160(c) to Accelerate Investment in Broadband and Next-Generation Networks, WC Docket No. 18-141

Dear Ms. Dortch,

I am writing to you on behalf of St. Mary's Preschool. We're a licensed Preschool under SF Archdiocese for more than 3 years. We are a Sonic customer, and we urge you not to grant USTelecom's petition.

We had been helped by Sonic to setup our small network for our operation which resolved our aging problem that Comcast and AT&T couldn't resolve. All we need is a simple DSL Internet connection service to communicate with parents and Parish as well as providing educational material to children. Other service providers are either charging much higher for the same service or providing longer service wait time.

It is the price and service that we decide to purchase Internet solution from Sonic for St. Mary's Preschool. Most importantly, we will have our problem resolved by just a phone call away. We have encountered Internet problems 3 times and those problems were resolved within 1-2 days. We are very pleased and satisfied with Sonic after-sale services indeed.

If we could not continue to have Sonic servicing our internet in preschool campus and St. Mary's Church, we will not be able to function properly because we tried AT&T and Comcast services previously but they all failed. Most importantly, our internet cost will go 3 times higher and we can't justify that high cost without a good reason to SF Archdiocese.

Please do not end the ability of providers like Sonic to offer an alternative to the incumbent providers.

Sincerely,

Pey Jaw

Director of St. Mary's Preschool
