It is very important that  
the FCC upholds net neutrality  
rules. The internet needs  
to remain open to all, and  
should not cater to  
corporations.

I am aggrivated by scrapping  
net neutrality. Big  
cable companies - or  
even Donald Trump -  
should not be able to  
decide what content  
is most important. This  
is a dangerous precedent.

Cheers,

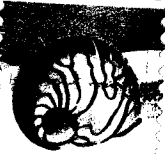

M. Smith
