RE: Case No. MD Docket 12-75 CSR 8597-C; New Day Broadband, LLC

DOCKET FILE COPY ORIGINAL

To Whom It May Concern,

In 2014, I was contacted by Joe Dunsheer, on behalf of Dennis Healey and his company New Day Broadband, LLC. The company was located in Las Vegas, but had investors across the country who had purchased shares of the company's common stock. The enticement was that New Day Broadband was planning on upgrading their equipment and selling to a bigger cable company, which would generate revenue and profit for investors. I ultimately made two investments of \$25,000.00 and received 50,000 shares of Broadband Properties, LLC. Neal Schnog, Chief Executive Officer, spoke with me on a few occasions and was the signer on the stock certificates I received.

After my investments, I awaited the sale of the company and/or its equipment to a big cable company and my return on investment. That never happened. I began looking into the operators of the company and found information that I was not aware of and was not disclosed to me at the time of my investment. That information is provided below:

Dennis C. Healey was the owner of Spellbinder Funding, LLC, located in Nevada. The company's business status was permanently revoked following at least one Cease and Desist Order. On June 15, 2004, the State of Wisconsin, Department of Financial Institution, Division of Securities, found that Healey and Spellbinder violated several securities laws including general solicitation, offering unregistered securities, having unregistered agents, transacting business in Wisconsin, etc. On June 23, 2004, the same division placed an Order of Prohibition and Revocation against Healey and Spellbinder, which ordered Healey, and his agents are prohibited from selling securities until they are properly registered, all exemptions for Healey and his associates are revoked, and prohibited from employing an agent that is not licensed in Wisconsin. Spellbinder and Healey were also ordered to Cease and Desist in the State of Montana, for the same reasons. That order took place in August 2004. In July 2009, Healey and Spellbinder were ordered to Cease and Desist in the State of Washington for many of the same violations. Healey is a repeat offender of securities laws, and did not disclose his past to investors, including myself.

New Day Broadband was notified on May 21, 2013 to Cease and Desist all operations in the County of Tehama. Again, this was not disclosed to me.

Lastly, the Federal Trade Commission heard a case between New Day Broadband and KIRO-TV, Inc. which resulted in a forfeiture of over \$4million because New Day retransmitted KIRO-TV's programming without consent for 592 days between August 1, 2010 and March 15, 2012.

It is evident that Healey and Schnog purposely deceived and manipulated consumers and the public interest through their elaborate scheme(s). Healey and Schnog had very little intention of selling the

company or its equipment to generate revenue and make a profit on the stocks that were sold to unknowing investors. I have attempted to contact the company and its representatives several times since my investment but to no avail. I am willing to provide any additional information to prove my investments with this company and to recoup the funds that I lost as a result of their wrong doing.

I have submitted this information to several different agencies, named below. If you are able to provide any assistance to this matter, please advise.

Respectfully Submitted,

/s/ Jerry Hudgins

Dear Mr. & Mrs. Hudgins:

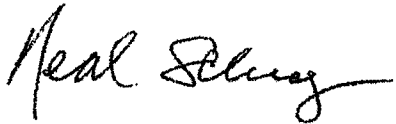

On January 29, 2014, we received your check number 1375 in the amount of \$25,000.00. Welcome aboard, we're delighted to have you with us.

Please find the enclosed certificate No 044 in the name Jerry & Suzette Hudgins as Joint Tenants, representing your investment. Also enclosed is a signed copy of your subscription documents.

As you probably know, 2013 has been a very busy year for our broadband cable television systems. We are now at the precipice of connecting all of our Plumas County and Sierra County systems with the Quincy head-end via fiber lines. In addition, we also have new bandwidth available that will come over a direct fiber route to the internet backbone. These two opportunities came through a deal we inked with the local PUD. In the deal, we swapped fiber to get the routes we needed to connect all of our systems. The best part is that the swap came with no cash outlays on our part, saving us millions of dollars had we had to install the routes ourselves. In addition, the new fiber will allow us to shut down a head-end and two microwave sites saving over \$36,000 a year in operating costs. Finally, as a primary partner with the local PUD, they have offered to help us market our broadband services after we get the fiber connections completed. I hope that these efforts will garner us significant new business.

If you have any questions, please do not hesitate to call me at 702 534-4281. We truly appreciate your continued confidence and support.

Sincerely,

Neal Schnog
