to whom it may concern.

Do NOT GET RID OF NET NEUTRALITY.  
It didn't work in EU did it? It would  
alienate the poorest people and  
destroy small businesses. Think  
about what you're saying, you want  
to create jobs in an industry that  
would sell "fastlanes" to internet  
at the detriment to small businesses  
that will go under, leaving many  
more out of work. That is  
UNEMPLOYMENT! Stop working for  
the top 1 percent! STOP  
Stop being greedy! I'm outraged  
by the greed of the government.  
EQUAL PLAYING FIELD FOR ALL  
not just for the rich
