RE: Accelerating Wireless Broadband Deployment by Removing Barriers to
Infrastructure Development, WT Docket No. 17-79

Dear Ms. Dortch:

On July 23, 2018, Edward A. Farscht, Chief Executive Officer of Diamond Communications LLC (“Diamond”) and the undersigned met separately with the following individuals with respect to the above referenced matter: Commissioner O’Rielly and Erin McGrath, Legal Advisor to Commissioner O’Rielly; Michael Carowitz, Special Counsel, Office of Chairman Pai; Will Adams, Legal Advisor to Commissioner Carr; Umair Javed, Legal Advisor to Commissioner Rosenworcel; and the following members of the Wireless Telecommunications Bureau and Wireline Competition Bureau, respectively, Jonathan Campbell, Jiaming Shang, Jonathan Lechter, Darrell Pae, Deborah Salons, David Sieradzki, Jennifer Salhus and Joseph Wyer.

During these meetings, we discussed Diamond’s support of 5G deployment, particularly small deployment in the rights-of-way and how such deployment shall compliment the macro tower model. We also discussed the importance of working with local communities in order to ensure the streamlining of small cell deployment in the rights-of-way while balancing the concerns of such communities.

Please contact the undersigned if you have any questions.

Sincerely,

/s/ Gene Grieco
