**Re: Verizon Public Notice of Network Change(s), 47 C.F.R. §§51.325–51.335**  
**Copper Retirement ID No. 2017-03-A-MA**

Dear Ms. Dortch:

Pursuant to Sections 51.325 – 51.335 of the Commission’s rules, Verizon hereby submits the attached Public Notice of Copper Retirement under rule 51.332. Specifically, Verizon is providing notification of the replacement of copper distribution and loop facilities with fiber-to-the-home facilities: 1) in all locations in the Chelmsford Structure, Franklin, Ipswich, Littleton, Randolph, and Taunton, MA wire centers, and 2) at specified locations in the Dorchester, Roxbury, and West Roxbury wire centers as listed in Exhibit A to the copper retirement notice. Upon completion, Verizon will provide services available over its fiber optic network.

The majority of customers served by copper at these locations purchase “plain old telephone service.” Following transition to fiber, Verizon will continue to offer these customers the same POTS over fiber at the same or better price as they received on copper facilities, with no change in the underlying features and functionalities in their service.

There may be one or more obsolete, narrowband services (such as certain DS0 level services) that are incompatible with or unavailable over fiber. If so, we will work closely with those customers to address their particular needs.

A copy of the attached notice was mailed to the Massachusetts Department of Telecommunications and Cable, Governor Charlie Baker, and the Department of Defense Chief Information Officer. Verizon has not provided notification to tribal entities as no tribal entity will be impacted by this copper retirement.

Please contact me should you need any further information.

Sincerely,

cc: Massachusetts Department of Telecommunications and Cable  
Governor Charlie Baker  
Department of Defense Chief Information Officer

**Description of the planned network change(s):**

Verizon intends to retire copper facilities: 1) in all locations in the Chelmsford Structure, Franklin, Ipswich, Littleton, Randolph, and Taunton, MA wire centers, and, 2) at locations in the Dorchester, Roxbury, and West Roxbury wire centers listed in the attached Exhibit A. Verizon has deployed or plans to deploy its fiber-to-the-home network in the areas listed above and intends to provide services over a fiber network infrastructure.

**Description of reasonably foreseeable impact(s) of the planned change(s):**

After the retirement of the copper facilities, Verizon will: (1) no longer offer services over copper facilities; and (2) cease maintaining the copper facilities.

**Description of any changes in prices, terms, or conditions that will accompany the planned change(s):**

As a general matter, the retirement of copper facilities will not result in changes to rates, terms, and conditions in cases where the affected service is converted to a like-for-like service that is available on fiber facilities. Interconnecting entities, however, should review the applicable tariff or agreement for certain terms that may apply specifically in cases where the service is provisioned on fiber. In cases where interconnecting entities elect to replace the affected service with an alternative service that Verizon offers on fiber facilities, the rates, terms and conditions will be as set forth in the tariff or agreement under which Verizon offers the replacement service that the interconnecting entity selects. Verizon, separately from this notice, will provide interconnecting entities with further information regarding service migration options that Verizon offers.

***Verizon provided this document to interconnected entities, state utility commissions and state governors in lieu of a specific address list as permitted by the Wireline Competition Bureau's February 10, 2017 Order in GN Docket No. 13-5.***
