DOCKET FILE COPY ORIGINAL

Docket Number:
MB Docket 17-179

I am writing in protest of the approval of any petition by Sinclair that will expand their audience penetration. To allow such a huge increase in their potential audience, well past what the FCC has allowed in the past, reeks of political favoritism. In this time of false narrative, it is imperative that stations not be weapons of a political party that has the advantage, at the moment, of putting people in place to advance their agenda. I strongly register my disapproval of this proposed expansion.

Thank you,

Dana Weld
