**Re: In the Matter of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

As a consumer, my family and I support broadband competition. We appreciate the benefits of more competition because it means we are able to get the best price for the best service that fits our family's needs. We really like what Sonic has provided for us, such as better internet and telephone landline service. Our granddaughter uses the internet to do her homework which she then submits it by sending it to her teacher when she has completed it. It's paperless homework! It's just wonderful how the lower costs through Sonic makes broadband affordable for our family.

My family and I urge you to please keep broadband competitive; so, that price hikes will not increase for internet and telephone services.

Thank you for your attention on this very important matter.

Marie Lee
