**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

It's time to stop AT&T's greedy grab to put small and mid-sized competitors out of business. It is imperative that AT&T's petition to take away access to critical unbundled network elements be denied. They are too powerful already and this is proof that they are unable to handle the power they have assembled.

I run my small business from my home and fast, economical internet access is important to the way I run it. I need the internet service provided by my medium sized ISP here in Northern California that is guaranteed by current rules. Please don't endanger this business to satisfy AT&T greed.
