**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I'm a residential consumer of broadband through a local provider. I moved to this provider from AT&T because I was very dis-satisfied with their unreliable services, high costs (which were raised constantly) and horrible customer service. When I researched the various providers, I found that no one was happy with the Big Guys. I found a small local provider that everyone was happy with.....and I have never looked back. I'm hoping that does not change.

I'm asking that you do all you can to promote and keep competition alive. It is only with true competition that the consumer gets the best prices and services. Big Telecoms want a monopoly. Without competition, the big and rich get bigger and richer at the expense of the consumer.

The big telecoms have their army of lobbyist. No one advocates for the small guy like me. Please promote more competition, not less. Everyone wins with competition, consumers, small business and even the big telecoms, who will have to step up to the plate and provide great service at a competitive rate. Don't let them get fat, rich and complacent.

Thank you for your consideration.
