**Re: In the Matter of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I live in northern California which has been decimated the past few years by wildfires. The men and women who fight these fires use the internet every day to help coordinate crews and save lives. Thanks to the deregulation of "net neutrality" Verizon slowed down our firemen's internet speed when Verizon said they exceeded their limit. This is just one reason to roll back this latest giveaway to big business at the expense of American citizens.

The reason I chose my current ISP was due to their promise to keep the net neutral.

I say NO to FCC's strangle hold imposed on the net that puts corporations before people and the free flow of information on the web. No matter what the supreme court says, corporations will never be people.
