**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

As an American, I not only want as many choices as possible for my internet and phone service, I NEED as many choices as possible to keep competition healthy and FAIR. This is what this great country is supposed to be about. Please do everything you can to retain and promote competitive telecommunication laws. Don't take away access to critical unbundled network elements. These unbundled elements are critical last-mile copper and inter-city fiber; the very technology that allows other internet and phone service providers to compete fairly and healthfully. Without access to such infrastructure, healthy competition is at risk of being lost.

This is why I and YOU should support broadband competition and competitive deployment. Please, don't do anything to compromise this! Thank you.
