**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I chose a customer friendly ISP that continues to advocate for digital rights of their customers instead of the corporate greed of shareholders.

Access to broadband is critical to our economy, freedoms, and democracy. The proposal from US Telecom is anti-competitive and will hinder the expansion and adoption of affordable broadband in the US. They represent the worst of the broadband industry and do not embrace a free market and a level playing field for second tier ISPs.

Broadband is infrastructure the way our highways are infrastructure and require the public oversight of the FCC.

Alex M
