**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am a consumer who works for a local nonprofit in San Francisco, CA. I support broadband competition in my region and my country. As a consumer, my local neighborhood is only currently cabled to support high speed Internet, needed for me to work. The dumbfounding lack of options creates monopolistic Laissez-Faire service, and imposes predatory rates and limitations on the consumers ability to select an appropriate product within the budget. Its disappointing to see large providers try to weasel around healthy competition, which we know can create the grounds for capitalistic innovations. All around competition is the basis for capitalism and affordable products for consumers in the US. Do not bring us sell us out to the interests on monopolies.
