**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

As a long time Comcast customer who became tired of their constant increased prices I switched to Sonic and, what a difference! Customer service, pricing, speed of internet use, all of this improved greatly. I am writing to support competitive telecommunication services, when there is a monopoly on this it creates a real problem for consumers.

Sonic is a great provider and has done so much here to increase the speed of the internet while, at the same time, keeping their monthly charges low. Whenever I have a problem they immediately take care of it. It would be shameful if AT&T were to stop their progress in adding fiber optic networks to underserved areas of our county.

Please support broadband competition. It's good for the country, for business owners, and for consumers like myself.

Thank you.

Dr. Connie Kellogg
