**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

It is essential for the prosperity of the internet that competition be allowed to use share infrastructure. It is an undue burden to ask ISPs to build their own network when sharing existing systems has been in place for many decades. I rely on a cheap internet connection to work from home and the current system allows this to happen.

Thank you and please do the right thing here!
