**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

In compare to other countries, the internet service in US is far behind Japan, Korea, Singapore, and even a little place Hong Kong. In those countries, the cost internet service is relative lower than US and the speed is must faster than US. As a country with leading technology, we should feel ashamed on the internet service.

To improve the quality of internet service, we should have more competitive providers, such as Sonic, that will motive the existing providers to invest on the new technology, equipment and services, and improve their service for the business and home users for next decade. That is why, I leave AT&T and choose Sonic for my internet service provider.
