**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

We like competition. With competition, you don't see just competitive pricing; you see advancements in technology. We know after "Ma Bell" will broken up in the 80's, we have huge advancement in technologies that was hidden away in AT&T labs such as the cellular phone. How does this translate to today, Sonic is the only company willing to provide better and faster internet speed for the "final mile". AT&T chose not to deliver better speeds at lower prices. Our business is better with Sonic with it's lower prices and faster speeds over AT&T. Our flat rate phone and internet service allows for us to spend budget on other technologies in our business.

We don't want AT&T to become a monopoly again, who plans to increase the price delivering inferior service.
