

Appendix

Summary: Each state, district or territory of the United States is divided by county (or county equivalent), and includes the population of the county (Census 2010), total megahertz of New T-Mobile post-merger, and the population density of the county.

Column Headings	<u>County.</u>	Name of county (or county equivalent).
	<u>State.</u>	Two-letter state abbreviation.
	<u>Density.</u>	Square miles of county divided by the population.
	<u>Total MHz.</u>	Total number of megahertz held by New T-Mobile post-merger.
	<u>MHz Screen.</u>	New T-Mobile's proposed spectrum screen of 238.5 megahertz.
	<u>Difference.</u>	Difference between "Total MHz" and "MHz Screen."

Bold New T-Mobile exceeds its own proposed spectrum screen of 238.5 megahertz.

Highlight The county (or county equivalent) is designated as "rural" (*i.e.*, the population density of the county is 100 people per square miles, or fewer).
