**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Soni.net allowed my family to have internet access when AT&T, Comcast, etc. wouldn't come to out house because they couldn't guarantee speed. I have been a Sonic customer for a very long time- 10 yrs-ish and value what they proved and how they provide it. I appreciate that they are local for us, have excellent customer service and strive to keep my costs down. Their internet access has helped both my kids through high school and all three of us through college with online classes and reliable access to information. Much of the time these past years, we would not have been able to afford internet access if Sonic had not been available. We also have our home phone with Sonic and our TV service is a deal we've received through them. Our whole package for all three comes in around \$125.00-very affordable in this day.

Thank you,  
Brigitte DeLeon
