**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

My husband and I were one of the first folks in Sebastopol, CA to have copper, then fiber broadband service through Sonic.net. We love the speedy internet and count on Sonic for our landline phone line as well. It is clear as day compared to other providers or a cell phone. We appreciate the American spirit of free competition and would sorely be disappointed if we were only offered two choices. By having competition, companies must keep up with technology to stay ahead of the game.

Sonic has been the best broadband server we have ever had. They are incredibly reliable, saved us money as technology improved and are always up on the latest break-throughs, often inventing them first.

Please keep broadband competition. It's the American way!
