**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am a consumer and I have been using broadband for a few years now. My family transferred to a local competitive carrier since big companies like AT&T did not meet our needs and wants. This is very critical to our home with children since we can not afford anymore price hikes that will increase the cost of internet and telephone services. Competitive telecoms create more options for everyone that come from a variety of backgrounds and have different needs. Big telephone companies will monopolize the market destroying all the small businesses, therefore cutting off competition. Please please please think about the families that depend on local competitive carriers for service and how this will change their lives including my own. Thank you for taking your time to read my letter.
