**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Taking away the necessary broadband fiber tools that allow a smaller and MUCH better business to compete and thrive in todays communication sector is unacceptable. It makes sense that a giant like AT&T would seek to block the growth of newer and better companies from competing with them. BUT, in a free market that is ever changing - so obviously in need of a more dynamic and efficient direction, shutting down access to certain technology would not only hinder ocompeting businesses deserved equity but will also rob us consumers of having the basic right of choosing the best service for our needs. Its time for a better option to prevail. Make the right choice. Thanks.
