**Re: In the Matter of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

We need more competition that fosters innovation and fair prices. Having a handful of monopoly companies puts the public at a disadvantage. We have to deal with slow internet speeds and high prices. The United States is falling way behind the rest of the developed world when it comes to broadband access. The major cities and suburbs should be all wired with fiber. As the leader of the free world, we should not have to deal with slow internet speeds and high prices.

Harry Cam
