**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I like having competitive providers to choose from, rather than being stuck with just 1 or 2 choices.

It is imperative that there are NO price hikes that will increase the cost of internet and telephone services. Right now, I have broadband from a competitive provider and I would like to continue because broadband is critical to my home computer and telephone as I use these for my business also.

Previously, I was connected to the internet by DSL, but I have fiber now, which makes a world of difference.

Local broadband providers are critical so that we as consumers have more options to choose from. Please Do Not raise prices for these local providers because that would mean price increases for us as consumers for both internet and telephone services.

Thank you for your consideration.
