**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am a long time user of sonic net as my internet provider. I love them. I have recommended them to my friends and neighbors. We are thrilled with them. They have not raised their prices since I first got their service. I think of them as friends and when I see their truck out and about I check to see if the folks in that truck would like a cup of coffee or a piece of chocolate.

One of me neighbors speaks Chinese as his first language and his English is not perfect and he was concerned about getting service from folks up in Santa Rosa too far to go and talk in person to overcome any communication problem. I promised him he would be fine. Now he too loves Sonic!!

Competition is what has made this country great!!! No one would consider it reasonable in 2018 to have just one women's dress in just one color and a variety of sizes. Or apples are in season now so, we just have these red apples and sorry no other fruits. We need variety and competition in internet service providers just like everything else.

I get my phone from Sonic too. Once again I love'em.

I love sonic net but an otherwise intelligent friend of mine buys his internet service from AT&T.  
Viva la difference!
