**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I have fiber access, but before that I had to use unbundled DSL. It all was provided by a local ISP. The Bridge to Broadband is critical in keeping local ISPs and providing both price and service competition the AT&T. Before I had this service AT&T intentionally slowed down my access to try to get me to upgrade to a more expensive service. My local ISP was my answer to AT&T. Don't take that answer away!
