**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Broadband connectivity is critical to me as an IT professional performing my job practically 100% from my home. I am very much in support of broadband competition to keep rates low and not have big telecom companies monopolize the market and perform massive rate hikes without any options for the consumer.

I had started out with DSL broadband connectivity through a local internet provider due to their competitive rates and I had upgraded to fiber with them for the same reason.

Having competition and a variety of options for local internet providers builds a healthy future. I choose NO to price hikes and will increase the cost of internet and telephone services.

Regards.

Kent Lui
